# Urban Design and Urban Planning

Helmed by Dr. Liu Thai Ker, who is recognised as the “father of city planning” of modern Singapore and has provided urban planning services in over 50 cities worldwide, MORROW is involved in more than 20 master plans designed for populations up to 8 million people since its establishment in December 2017. Liveability and sustainability are key priorities in each of these projects.

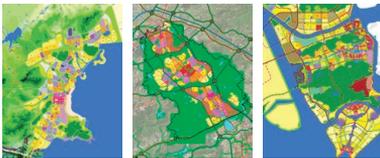

Constellation City  
6—20 Million Population

# Architecture

MORROW is adept in designing a wide range of building typologies. It draws inspiration from factors such as the context, culture, end-users and socio-economic conditions to create spaces that have a positive impact on the community.
